

# **Exhibit A**

MISSISSIPPI LEGISLATURE

REGULAR SESSION 2018

By: Representatives Currie, Eubanks, Gipson, Ford, Carpenter, Bain, Scoggin, Arnold, Brown, Weathersby, Rogers (61st), Foster, Wilkes, Hopkins, Crawford, Henley To: Judiciary B

HOUSE BILL NO. 1510  
(As Sent to Governor)

1 AN ACT TO BE KNOWN AS THE GESTATIONAL AGE ACT; TO ENACT  
2 DEFINITIONS; TO PROHIBIT ABORTIONS AFTER 15 WEEKS' GESTATION; TO  
3 PROVIDE CIVIL PENALTIES; AND FOR RELATED PURPOSES.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

5 **SECTION 1.** (1) This section shall be known and cited as the  
6 "Gestational Age Act."

7 (2) **Legislative findings and purpose.** The Legislature makes  
8 the following findings of fact and incorporates them herein by  
9 reference:

10 (a) The United States is one (1) of only seven (7)  
11 nations in the world that permits nontherapeutic or elective  
12 abortion-on-demand after the twentieth week of gestation. In  
13 fact, fully seventy-five percent (75%) of all nations do not  
14 permit abortion after twelve (12) weeks' gestation, except (in  
15 most instances) to save the life and to preserve the physical  
16 health of the mother.

17 (b) (i) Medical and other authorities now know more  
18 about human prenatal development than ever before including that:

19 1. Between five (5) and six (6) weeks'  
20 gestation, an unborn human being's heart begins beating.

21 2. An unborn human being begins to move about  
22 in the womb at approximately eight (8) weeks' gestation.

23 3. At nine (9) weeks' gestation, all basic  
24 physiological functions are present. Teeth and eyes are present,  
25 as well as external genitalia.

26 4. An unborn human being's vital organs begin  
27 to function at ten (10) weeks' gestation. Hair, fingernails, and  
28 toenails also begin to form.

29 5. At eleven (11) weeks' gestation, an unborn  
30 human being's diaphragm is developing, and he or she may even  
31 hiccup. He or she is beginning to move about freely in the womb.

32 6. At twelve (12) weeks' gestation, an unborn  
33 human being can open and close his or her fingers, starts to make  
34 sucking motions, and senses stimulation from the world outside the  
35 womb. Importantly, he or she has taken on "the human form" in all  
36 relevant aspects. *Gonzales v. Carhart*, 550 U.S. 124, 160 (2007).

37 7. The Supreme Court has long recognized that  
38 the State of Mississippi has an "important and legitimate interest  
39 in protecting the potentiality of human life," *Roe v. Wade*, 410  
40 U.S. 113, 162 (1973), and specifically that "the state has an  
41 interest in protecting the life of the unborn." *Planned*  
42 *Parenthood of Southeastern Pennsylvania v. Casey*, 505 U.S. 833,  
43 873 (1992).

44                   8. The majority of abortion procedures  
45 performed after fifteen (15) weeks' gestation are dilation and  
46 evacuation procedures which involve the use of surgical  
47 instruments to crush and tear the unborn child apart before  
48 removing the pieces of the dead child from the womb. The  
49 Legislature finds that the intentional commitment of such acts for  
50 nontherapeutic or elective reasons is a barbaric practice,  
51 dangerous for the maternal patient, and demeaning to the medical  
52 profession.

53                   9. Most obstetricians and gynecologists  
54 practicing in the State of Mississippi do not offer or perform  
55 nontherapeutic or elective abortions. Even fewer offer or perform  
56 the dilation and evacuation abortion procedure even though it is  
57 within their scope of practice.

58                   (ii) Abortion carries significant physical and  
59 psychological risks to the maternal patient, and these physical  
60 and psychological risks increase with gestational age.  
61 Specifically, in abortions performed after eight (8) weeks'  
62 gestation, the relative physical and psychological risks escalate  
63 exponentially as gestational age increases. L. Bartlett et al.,  
64 *Risk factors for legal induced abortion mortality in the United*  
65 *States*, OBSTETRICS AND GYNECOLOGY 103(4):729 (2004).

66                   (iii) Importantly, as the second trimester  
67 progresses, in the vast majority of uncomplicated pregnancies, the

maternal health risks of undergoing an abortion are greater than the risks of carrying a pregnancy to term.

(iv) Medical complications from dilation and evacuation abortions include, but are not limited to: pelvic infection; incomplete abortions (retained tissue); blood clots; heavy bleeding or hemorrhage; laceration, tear, or other injury to the cervix; puncture, laceration, tear, or other injury to the uterus; injury to the bowel or bladder; depression; anxiety; substance abuse; and other emotional or psychological problems. Further, in abortions performed after fifteen (15) weeks' gestation, there is a higher risk of requiring a hysterectomy, other reparative surgery, or blood transfusion.

(v) The State of Mississippi also has "legitimate interests from the outset of pregnancy in protecting the health of women." *Planned Parenthood of Southeastern Pennsylvania v. Casey*, 505 U.S. 833, 847 (1992), as the "medical, emotional, and psychological consequences of abortion are serious and can be lasting ..." *H.L. v. Matheson*, 450 U.S. 398, 411 (1981).

(c) Based on the findings in paragraph (a) of this subsection, it is the intent of the Legislature, through this act and any regulations and policies promulgated hereunder, to restrict the practice of nontherapeutic or elective abortion to the period up to the fifteenth week of gestation.

(3) **Definitions.** As used in this section:

92 (a) "Abortion" means the use or prescription of an  
93 instrument, medicine, drug, or other substance or device with the  
94 intent to terminate a clinically diagnosable pregnancy for reasons  
95 other than to increase the probability of a live birth, to  
96 preserve the life or health of the unborn human being, to  
97 terminate an ectopic pregnancy, or to remove a dead unborn human  
98 being.

99 (b) "Attempt to perform or induce an abortion" means to  
100 do or omit anything that, under the circumstances as the person  
101 believes them to be, is an act or omission that constitutes a  
102 substantial step in a course of conduct planned to culminate in  
103 the performance or induction of an abortion in violation of this  
104 section.

105 (c) "Conception" means the fusion of human spermatozoon  
106 with a human ovum.

107 (d) "Department" means the Mississippi State Department  
108 of Health.

109 (e) "Gestation" means the time that has elapsed since  
110 the first day of the woman's last menstrual period.

111 (f) "Gestational age" or "probable gestation age" means  
112 the age of an unborn human being as calculated from the first day  
113 of the last menstrual period of the pregnant woman.

114 (g) "Human being" means an individual member of the  
115 species Homo sapiens, from and after the point of conception.

116 (h) "Severe fetal abnormality" means a life-threatening

117 physical condition that, in reasonable medical judgment,  
118 regardless of the provision of life-saving medical treatment, is  
119 incompatible with life outside the womb.

120 (i) "Major bodily function" includes, but is not  
121 limited to, functions of the immune system, normal cell growth,  
122 and digestive, bowel, bladder, neurological, brain, respiratory,  
123 circulatory, endocrine, and reproductive functions.

124 (j) "Medical emergency" means a condition in which, on  
125 the basis of the physician's good faith clinical judgment, an  
126 abortion is necessary to preserve the life of a pregnant woman  
127 whose life is endangered by a physical disorder, physical illness,  
128 or physical injury, including a life-endangering physical  
129 condition arising from the pregnancy itself, or when the  
130 continuation of the pregnancy will create a serious risk of  
131 substantial and irreversible impairment of a major bodily  
132 function.

133 (k) "Physician" or "referring physician" means a person  
134 licensed to practice medicine in the State of Mississippi.

135 (4) **Abortion limited to fifteen (15) weeks' gestation except**  
136 **in medical emergency and in cases of severe fetal abnormality.**

137 (a) Except in a medical emergency or in the case of a severe  
138 fetal abnormality, a person shall not perform, induce, or attempt  
139 to perform or induce an abortion unless the physician or the  
140 referring physician has first made a determination of the probable  
141 gestational age of the unborn human being and documented that

gestational age in the maternal patient's chart and, if required, in a report to be filed with the department as set forth in paragraph (c) of this subsection. The determination of probable gestational age shall be made according to standard medical practices and techniques used in the community.

(b) Except in a medical emergency or in the case of a severe fetal abnormality, a person shall not intentionally or knowingly perform, induce, or attempt to perform or induce an abortion of an unborn human being if the probable gestational age of the unborn human being has been determined to be greater than fifteen (15) weeks.

(c) In every case in which a physician performs or induces an abortion on an unborn human being whose gestational age is greater than fifteen (15) weeks, the physician shall within fifteen (15) days of the abortion cause to be filed with the department, on a form supplied by the department, a report containing the following information:

- (i) Date the abortion was performed;
- (ii) Specific method of abortion used;
- (iii) The probable gestational age of the unborn human being and the method used to calculate gestational age;
- (iv) A statement declaring that the abortion was necessary to preserve the life or physical health of the maternal patient;

(v) Specific medical indications supporting the abortion; and

(vi) Probable health consequences of the abortion and specific abortion method used.

The physician shall sign the form as his or her attestation under oath that the information stated thereon is true and correct to the best of his or her knowledge.

(d) Reports required and submitted under subsection (4) of this section shall not contain the name of the maternal patient upon whom the abortion was performed or any other information or identifiers that would make it possible to identify, in any manner or under any circumstances, a woman who obtained or sought to obtain an abortion.

(5) **Reporting forms.** The department shall create the forms required by this section within thirty (30) days after the effective date of this act. No provision of this section requiring the reporting of information on forms published by the department shall be applicable until ten (10) days after the requisite forms have been made available or the effective date of this act, whichever is later.

(6) **Professional sanctions and civil penalties.** (a) A physician who intentionally or knowingly violates the prohibition in subsection (4) of this section commits an act of unprofessional conduct and his or her license to practice medicine in the State

190 of Mississippi shall be suspended or revoked pursuant to action by  
191 the Mississippi State Board of Medical Licensure.

192 (b) A physician who knowingly or intentionally delivers  
193 to the department any report required by subsection (4)(c) of this  
194 section and known by him or her to be false shall be subject to a  
195 civil penalty or fine up to Five Hundred Dollars (\$500.00) per  
196 violation imposed by the department.

197 (7) **Additional enforcement.** The Attorney General shall have  
198 authority to bring an action in law or equity to enforce the  
199 provisions of this section on behalf of the Director of the  
200 Mississippi State Department of Health or the Mississippi State  
201 Board of Medical Licensure. The Mississippi State Board of  
202 Medical Licensure shall also have authority to bring such action  
203 on its own behalf.

204 (8) **Construction.** Nothing in this section shall be  
205 construed as creating or recognizing a right to abortion or as  
206 altering generally accepted medical standards. It is not the  
207 intention of this section to make lawful an abortion that is  
208 otherwise unlawful. An abortion that complies with this section,  
209 but violates any other state law, is unlawful. An abortion that  
210 complies with another state law, but violates this section is  
211 unlawful.

212 (9) **Severability.** (a) It is the intent of the Legislature  
213 that every provision of this section shall operate with equal  
214 force and shall be severable one from the other and that, in the

215 event that any provision of this section shall be held invalid or  
216 unenforceable by a court of competent jurisdiction, said provision  
217 shall be deemed severable and the remaining provisions of this act  
218 deemed fully enforceable.

219 (b) In the event that any provision of this section  
220 shall be held invalid or unenforceable by a court of competent  
221 jurisdiction, Sections 41-41-131 through 41-41-145 shall remain in  
222 effect. If some or all of the provisions of this section are ever  
223 temporarily or permanently restrained or enjoined by judicial  
224 order, all other provisions of Mississippi law regulating or  
225 restricting abortion shall be enforced as though the restrained or  
226 enjoined provisions had not been adopted; however, whenever the  
227 temporary or permanent restraining order or injunction is stayed  
228 or dissolved, or otherwise ceases to have effect, the provisions  
229 of this section shall have full force and effect.

230 (c) Mindful of *Leavitt v. Jane L.*, 518 U.S. 137 (1996),  
231 regarding the context of determining the severability of a state  
232 section of law regulating abortion, the United States Supreme  
233 Court held that an explicit statement of legislative intent is  
234 controlling. Accordingly, it is the intent of the Legislature  
235 that every provision, section, subsection, paragraph, sentence,  
236 clause, phrase or word in this section and every application of  
237 the provisions in this section is severable from each other. If  
238 any application of any provision in this section to any person,  
239 group of persons, or circumstances is found by a competent court

240 to be invalid, the remaining applications of that provision to all  
241 other persons and circumstances shall be severed and may not be  
242 affected. All constitutionally valid applications of this section  
243 shall be severed from any applications that a court finds to be  
244 invalid, leaving the valid applications in force, because it is  
245 the Legislature's intent and priority that the valid applications  
246 be allowed to stand alone. Even if a reviewing court finds a  
247 provision of this statute to impose an undue burden in a large or  
248 substantial fraction of relevant cases, the applications that do  
249 not represent an undue burden shall be severed from the remaining  
250 provisions and shall remain in force, and shall be treated as if  
251 the Legislature had enacted a section limited to the persons,  
252 group of persons, or circumstances for which the section's  
253 application does not present an undue burden. The Legislature  
254 further declares that it would have passed this section and each  
255 provision, section, subsection, paragraph, sentence, clause,  
256 phrase or word, and all constitutional applications of this  
257 section, without regard to the fact that any provision, section,  
258 subsection, paragraph, sentence, clause, phrase or word, or  
259 applications of this section, were to be declared unconstitutional  
260 or to represent an undue burden.

261 (d) If this section is found by any competent court to  
262 be invalid or to impose an undue burden as applied to any person,  
263 group of persons, or circumstances, the prohibition shall apply to

264 that person or group of persons or circumstances on the earliest  
265 date on which this section can be constitutionally applied.

266 (e) If any provisions of this section are found by a  
267 competent court to be unconstitutionally vague, then the  
268 applications of the provision that do not present constitutional  
269 vagueness problems shall be severed and remain in force.

270 (10) **Right of intervention.** The Legislature, through one or  
271 more sponsors of this act duly appointed by resolution of their  
272 respective chamber, may intervene as a matter of right in any case  
273 in which the constitutionality of this section is challenged. The  
274 Governor may also intervene as a matter of right in any case in  
275 which the constitutionality of this section is challenged.

276 **SECTION 2.** This act shall take effect and be in force from  
277 and after its passage.
